Dear Harold:

3-6

I've got to admit I was surprised at your reaction to the Chicago paper clippings - but because of my great respect for your work I must reconsider my initial feelings about the Allegory press conference.

I do know that reporters here who had argued with me for years about Dallas after seeing the films 3 times, once in slow motion, admitted they were convinced by them.

Larry's on vacation so we haven't had much chance to discuss things.

Love and peace of mind...

I wish you and my great friend Greg could get together.
